

GENERAL INFORMATION:-

General Information

1. Lens material - Optical PC
 2. Operating Temperature range -40° ~ $+110^{\circ}$ (Upper Limit $+130^{\circ}$)
 3. Storage Temperature range -40° ~ $+110^{\circ}$ (Upper Limit $+130^{\circ}$ C)
- Average transmittance in visible spectrum 400nm-700nm > 90%

Usage and Maintenance:

1. If necessary, clean lenses with mild soap, water and soft cloth.
2. Never use any commercial cleaning solvents like Alcohol.
3. Handle and install lenses with wearing gloves, skin oils may Damage lenses or its optical characteristics.

Open Tolrence $\pm 0.2\text{mm}$
